SKILLS SUMMARY

- **Languages:** Python, Java, C++, C, SQL, JavaScript
- **Frameworks & Libraries:** HTML, CSS, Spring Boot
- **Data Science & Analytics:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Power BI
- **Tools/Platforms:** Git, GitHub, Docker, VS Code, IntelliJ IDEA, Maven
- **Core Competencies:** Data Structures & Algorithms (DSA), JDBC, AI Integration, DevOps
- **Soft Skills:** Structured Problem Solving | Algorithmic Thinking | Team Collaboration | Ownership

TRAINING

Centre for Professional Enhancement, LPU [\[Link\]](#)

Placement Ace: Java + DSA Bootcamp (LeetCode Focused)

Jun 2025 – Jul 2025

- Completed intensive training in Data Structures & Algorithms in Java (arrays, hashing, linked lists, stacks/queues, trees, graphs, dynamic programming).
- Solved 250+ LeetCode-style problems using core patterns (two pointers, sliding window, BFS/DFS) with a focus on time/space complexity.
- Improved coding interview readiness through timed practice, clean implementations, and iterative optimization from brute-force to efficient solutions.

PROJECTS

MindSense – Youth Mental Health Predictor [\[GitHub\]](#)

Aug 2025 – Sep 2025

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Matplotlib

- Built an end-to-end ML pipeline (data cleaning, feature engineering, model training) on 600+ youth survey responses to predict stress/anxiety/depression risk; achieved ~85% accuracy on evaluation data.
- Compared and tuned multiple scikit-learn classifiers using cross-validation and metrics (precision/recall/F1, confusion matrix) to support an “early-warning” flag for high-risk individuals.
- Delivered insight-focused visualizations/dashboards (Matplotlib) showing how sleep, screen time, and exercise trends relate to predicted mental-health risk, improving interpretability for stakeholders.

CareerPath – AI Career Guidance Platform [\[Live Demo\]](#) [\[GitHub\]](#)

Oct 2025 – Dec 2025

Tech Stack: React.js, Firebase, Framer Motion, React Router, Vercel

- Created an AI career guidance platform for students that helps users discover suitable career paths and resources through a structured onboarding experience.
- Built an interactive career assessment quiz and generated personalized next-step guidance, with access to the main platform experience after quiz completion.
- Added a user dashboard experience that includes profile and settings management, plus a chat section for continued guidance/support.

AutoDataLab – Automated Data Analysis & Reporting [\[GitHub\]](#)

Jan 2026 – Present

Tech Stack: Python, FastAPI, Pandas, Scikit-learn, SQL, Docker, AWS

- Built AutoDataLab, an end-to-end project that automates data ingestion, cleaning, exploratory data analysis (EDA), and insight generation to speed up analytics workflows.
- Implemented reusable pipelines for data preprocessing (missing values, outliers, type casting, encoding/scaling) to produce analysis-ready datasets with minimal manual effort.
- Generated automated visualizations and summary statistics (distributions, correlations, trends) to quickly highlight key patterns and anomalies.

ACHIEVEMENTS

- **Secured 2nd Position in Code Caravan 3.0** [\[Link\]](#) Oct 2025
Placed 2nd among 250+ teams; co-developed a mental health application as part of a collaborative team project.
- **Ranked in the Top 50 in Smart India Hackathon 2025 – Internal Round** [\[Link\]](#) Aug 2025
Ranked in the Top 50 teams for proposing/building an AI-driven solution aligned with a real-world problem statement.
- **Solved 200+ Data Structures and Algorithms Problems on LeetCode** [\[Link\]](#) June 2025
Solved 200+ problems and improved algorithmic efficiency through time/space complexity optimization and faster implementation.

CERTIFICATIONS

• Privacy and Security in Online Social Media – NPTEL (IIIT Hyderabad & IIT Madras) [Link]	Mar 2025
• Introduction to Machine Learning – Prof. Balaraman Ravindran, IIT Madras [Link]	Jul 2025
• Java Full Stack Developer – CodeForSuccess [Link]	Jan 2026 – Present

EDUCATION

Lovely Professional University, Punjab <i>B.Tech in Computer Science and Engineering</i>	Aug 2023 – Present CGPA: 9.2
Bal Bharti Vidya Peeth School, Gohana <i>Intermediate (Class XII)</i>	Mar 2022 – May 2023 Percentage: 90%
Bal Bharti Vidya Peeth School, Gohana <i>Matriculation (Class X)</i>	Mar 2020 – May 2021 Percentage: 80%
